## Introduction

Robocademy is a robotics blog that started with the intention of sharing robotics tutorials and tips to help robotics enthusiasts around the globe. We are also planning to publish the latest news, job opportunities in robotics.

# Github README for Project

- Reference project and website:

# Project Ideas

- How to choose a project idea ?
  - Relevant and useful ideas
  - Can be a new feature in an Open-Source project
  - It can be a tutorial based code and documentation to teach a concept
  - Implementation of research papers
  - Fun projects

# Share your project Ideas

- Start small to go big

**Start** small,  
**But** START.

# Share your project Ideas

- Start small to go big

# Q&A
